Dear Parents/Guardians,

We will continue the journey together to prepare your child/ward for the transition to secondary school. I will share on the preparation for PSLE, the expectations of Kong Hwaians and the schedule for Term 3 and Term 4.

1. Journey towards PSLE

The PSLE Preliminary Examination for written papers will begin on 21 August 2017. We would like to encourage all P6 students to remain focused on the goals they have set for themselves. CCA stand-down has started for all P6 students except for those with on-going competitions and the P6 prefects have been relieved of their duties. For selected students who require additional support, the subject teachers will conduct additional remedial lessons on Mondays and/or Fridays. Students who are selected for these lessons will be issued consent forms. Supplementary lessons will be conducted on 6, 7 and 8 September 2017 during the September school holidays.

2. Expectations of P6 Kong Hwaians

At this point in P6, the students are expected to demonstrate independent learning. An independent learner is a self-disciplined student who takes ownership of his/her learning and possesses the desire to learn. Thus, he/she should take responsibility to complete work assigned and ensure the work is handed in punctually to the teacher. He/She can reflect on his/her own learning gaps and take actions to fill that gap through self-study or by seeking help from teachers. Socially, an independent learner contributes to a cohesive class by caring for and sharing with others. Those who are better should show care and concern for fellow Kong Hwaians. Actions and words towards fellow Kong Hwaians ought to be kind. Previously, a rude casual remark by a friend was taken seriously and resulted in accusation of bullying. Whether a hurtful remark is intentional or not, it is subjective. For example, a casual remark "Nay" to an Instagram photo can be a negative comment for a sensitive student. Yet, it might be a playful remark to another. For the safety of your child, he/she is advised to refrain from rough play which may be deemed to be dangerous. In the following crucial months, we urge you to monitor your child closely and advise your child to act, say and think positively. An independent learner should evidently display determination and resilience by giving a seemingly difficult question a try, overcoming setback quickly and thinking positively.

3. 2017 PSLE Instructions to Candidates

At the end of Term 2, your child was issued an information booklet entitled "2017 PSLE Instructions to Candidates". Your child had gone through the contents of this handbook in school. The information booklet contains details on exam regulations, exam format, use of dictionaries and calculators, what to do if students are unable to take their exams, withdrawal from PSLE, results and certificates, as well as full details of the exams timetable are included in the handbook. You may want to take a look at the information booklet to have a better understanding of the guidelines and procedures. It is mandatory for all students to abide by the code of conduct for examination.

Please note that only the approved scientific calculators and dictionaries in the lists provided in Annexes B and C are allowed for use during the school-based exams and PSLE. All calculators and dictionaries will have to be validated by the school and affixed with a sticker of approval before it can be used in PSLE. Thus, we urge your child/ward to ensure there is ample time to get ready the items to avoid any inconvenience and delay during the exams.

4. P6 Prelims Exam Scope 2017

The prelim exam aims to prepare students' psyche and gauge their readiness for PSLE. Hence, the scope is based on the Learning Outcomes stated in the syllabus of a subject. You may refer to <http://www.seab.gov.sg/pages/nationalExaminations/PSLE/syllabus.asp> for more information.

It is hope that you find the information useful. If you have queries or feedback, please email me at leong_jian_wei@moe.edu.sg

Yours faithfully,

Mr Wayne Leong
P6 Year Head
